Form C Exterior Wall Claddings of Part 9 Buildings

Permit Application Date: _____

Municipality: Foothills County

RE: Design and Field Review of Construction for the following Project

Project Name: _____

Project Address: _____

Legal Description: _____

I hereby give the assurance that the materials, installation and application of the exterior claddings described in the documents prepared and submitted in support of the application for a building meets the intent of Part 9 Division B of the National Building Code 2023 Alberta Edition. **I have an understanding or have employed someone who has an understanding of moisture control methods.** I also undertake to notify the Authority Having Jurisdiction in writing if the contract for field review is terminated at any time during construction.

I also confirm that the Authority Having Jurisdiction takes no responsibility for the use of this exterior wall cladding system in this project and I have advised the owner of this fact.

1. Stucco Cladding – Division B, Section 9.28

The exterior stucco will meet the requirements and intent of Division B, Section 9.28, National Building Code 2023 – Alberta Edition and the standards references herein as a guide of best practice:

- CAN/CSA-A3001 – “Cementitious Materials for Use in Concrete”
- ASTM C926 – “Standard Specifications of Application of Portland Cement-Based Plaster”
- ASTM C1063 – “Standard Specifications for Installation of Lathing and Furring to Receive Interior and Exterior Portland Cement-based Plaster”

2. Other – Claddings – Division B, Section 9.27

Other Cladding listed in Division B, Section 9.27, will meet the requirements and intent of Section 9.27 of the National Building Code 2023 – Alberta Edition and the standards referenced in the Code.

3. Field Review

I hereby undertake to be responsible for field review during construction as indicated in the following summary:

- Moisture management control, including protection from precipitation and interior /exterior moisture ingress control especially at openings and penetrations
- Cladding movement control and thermal expansion
- Selection and installation of materials including lath, stucco batching and mixing, stucco application and curing or Other cladding installation including (but not limited to) all the requirements of Division B Section 9.27 and 9.20 and any references by the National Building Code 2023 – Alberta Edition.
